The Black Death 9 Places Connected to the Plague

Referred to by contemporaries as the pestilence or plague, it is generally accepted that the Black Death arrived in Europe from central Asia in 1347. It spread rapidly across the continent from the Mediterranean ports, crossing the English Channel in the summer of the following year.

Black Death in England Wikipedia

The Black Death was a bubonic plague pandemic, which reached England in June 1348. It was the first and most severe manifestation of the Second Pandemic, caused by *Yersinia pestis* bacteria. The term "Black Death" was not used until the late 17th century. Originating in China, it spread west along the trade routes across Europe and arrived on the British Isles from the English province of Gascony.
